Subject: Re: Accident Database

Dear xxxx,

Our database manager has searched our database and identified only 3 incidents that may be of interest to you. Details of these are attached.

Our database holds records of accidents/incidents from 1991 that occurred to UK registered vessels or in UK 12 mile territorial waters (broadly speaking).

The attached contains only one accident to a UK flagged tanker & that was a tanker barge of only 60 gross tonnage. Population data for UK tankers of this size is probably not available. Although it may be worth contacting the Small Ship's Register in Cardiff.

For non UK vessels, for both population data and casualty data we suggest contacting Lloyd's Register Fairplay and/or Lloyd's Marine Intelligence Unit. If you need any further help please contact Cathy Pennock our Database Manager.

Kind regards

xxxx
