## **The Future of Transport - White Paper CM 6234**

---

A long term strategy for a modern, efficient and sustainable transport system backed up by sustained high levels of investment over the next 15 years was unveiled on the 20th July 2004 by Transport Secretary, Alistair Darling.

*The Future of Transport* White Paper looks at the factors that will shape travel and transport over the next thirty years and sets out how the Government will respond to the increasing demand for travel, maximising the benefits of transport while minimising the negative impact on people and the environment.
