## **Air quality**

---

### **Minutes of air quality technical panel meetings**

Minutes from the air quality technical panel meetings.

---

### **Correction to engine emission data resulting from engine deterioration (147 kb)**

A paper published by QinetiQ providing an overview of studies carried out to derive a value of engine deterioration and the consequential effects on SFC and emissions which can be applied to PSDH studies. From this overview, generic factors for emission fluctuations resulting from engine deterioration are derived.
