

Data sources

Information, links and bespoke datasets for the calculation of wider economic benefits. This includes a downloadable dataset of agglomeration elasticities produced by Dr Dan Graham. This is intended for scheme appraisers who are looking to estimate the impact of transport on wider economic benefits.

Agglomeration evidence by LA and industry (based on Dr Graham's research) (114 kb)

Excel spreadsheet providing agglomeration evidence by local authority and industry based on Dr Dan Graham's findings.
