

Working time, drivers' hours and tachograph rules in UK and Europe

Report on the review of the UK's implementation of the EU road transport working time Directive

This document sets out the terms of reference, methodology, evidence base and recommendations of the review of the UK's implementation of the EU road transport working time Directive (2002/15/EC). It discusses in detail the various stakeholder views on a number of key issues, and seeks to balance those views when making recommendations based on the evidence gathered.
