## About the DfT Rail Group

---

### Aim

Working in partnership with the industry, to secure the railway the country wants at a price it can afford.

### Objectives

- To ensure delivery of improved operational and financial performance, and safety, by the railway.
- To secure appropriate rail passenger services at an acceptable price through effective specification and procurement.
- To develop and deliver a robust, affordable and sustainable strategy for the development of the railway that supports wider transport objectives.
- To ensure the cost-effective and timely delivery of major rail projects.
