

Guidance and good practice

Guidance for producing full Local Transport Plans and annual progress reports.

Meeting Targets Through Transport (3 Mb)

This booklet has been produced by the Department for Transport in conjunction with Sustrans, Campaign for Better Transport and the Local Government Association. It is designed to help local authorities when planning and delivering local transport schemes within their community.

Advice on the prioritisation of smaller transport schemes

Effective scheme prioritisation is a challenging process for local authorities and there is little specific guidance on how they should prioritise smaller integrated transport schemes, which collectively make up a significant proportion of LTP expenditure. This Advice focuses on the prioritisation of expenditure on capital-based LTP Integrated Transport schemes.
