## National Travel Survey: 2006

---

The 2006 National Travel Survey (NTS) is the latest in a series of household surveys designed to provide a databank of personal travel information for Great Britain. It is part of a continuous survey that began in July 1988, following ad hoc surveys since the mid-1960s. The survey is designed to pick up long-term trends and is not suitable for monitoring short-term trends.
