## Publications and other resources

---

A wide range of documents and research reports about AEU's policies can be found through the following web pages. These pages also include links to relevant documents published by other bodies.

- [Access for Disabled People](#)  
Information and guidance on making all modes of public transport accessible to disabled people.
- [Crime and Public Transport](#)  
Guidance and good practice on reducing crime and fear of crime on public transport.
- [Social inclusion](#)  
Information, guidance and best practice on meeting the transport needs of different social groups, and on ways to reduce social exclusion.

The Department for Transport has details of all of its own publications issued since it was formed in May 2002. The details are available in its [publications database](#).

Disabled Persons Transport Advisory Committee (DPTAC) has made available a [list of their publications](#).

MIU also produces [annual reports](#) that explain its achievements during the previous year, how its work has contributed to the Department's overarching [aims and objectives](#). The reports also outline priorities and the programme of work for the forthcoming year.
