

## The value of working with VCA

Choosing the right certification partner is one of the most important elements of the certification process. There are a bewildering number of service providers out there but you should look for one that will add value to the overall process.

VCA is a specialist in the automotive sector, having supported the certification needs of the industry for more than 30 years. This means that our expert auditors have a comprehensive insight into every aspect of your business. It also means that we bring a significant amount of industry 'best practice' to the table and this is often cited as a key reason why customers choose VCA as their certification partner.

VCA is also the UK national type approval authority, certifying most vehicle types against the appropriate environmental, safety and security standards. This too means that we have an expert understanding of legislation and the process of vehicle certification.

Our service is based on the cornerstones of integrity, professionalism, quality and the very best customer service. We will:

- Provide audit teams that have real experience of the issues you face
- Look for opportunities for improvement, based on experience and 'best practice' within your sector
- Provide a dedicated support team
- Provide clear pricing information with no hidden extras
- Promote stable relationships with your audit team, you won't see a different person every time
- Provide integrated certification programmes to save you money (Quality, Environmental and Health & Safety)

VCA is accredited by the United Kingdom Accreditation Service (UKAS) against ISO 9001, ISO 14001, OHSAS 18001 and Acorn. In addition to this, VCA is recognised by the International Automotive Task Force (IATF) against ISO/TS 16949.

VCA has a client base ranging from SMEs to multi-national companies and meets their needs from offices around the world. Our aim is to help you to succeed.
