Applications Received

Inspection of licence applications can be requested free of charge by anybody who holds statutory Objector status. Inspection can take place, at the Traffic Area, by any person who carries written authority to act in that capacity.

Alternatively, copies of weekly publications can be obtained on payment of either an annual subscription of £15 or 60 pence for individual publications. Details can also be viewed by visiting **the VOSA website at** www.businesslink.gov.uk/transport.

Objections against published applications may be made in writing or faxed to 0113 248 8521 by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days after publication of this booklet. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the Objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an Objection is lodged lies with the objector.

Classification of operator licences – there are three licence categories:-

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (S/N)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (S/I)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3

Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing

licence or as part of a new licence application. A range of qualifying criteria have to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1) (a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5) (d) of the Act;

Variation applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act **unless** that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. **Section 3.3** does however detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

No action beyond the issue of a formal warning about the consequences of future non-compliance is taken under Section 26 of the Act for convictions or breach of undertaking as to compliance with rules on drivers' hours and tachographs, upon an undertaking being given that all tachographs will be independently analysed and reported upon, and remedial action will be taken when such reports reveal infringements.

No Direction is given under Section 30 of the Act to remove the existing operating centre at Lon-y-Felin as an authorised operating centre under this licence. No action is taken on breaches of a Section 23 Condition about hours/days of movements under Section 26(1) (b) of the Act.

The Condition and Undertaking imposed in 2004 are varied under Sections 31 and 32 of the Act as hereinafter mentioned -

That there be no movements of vehicles authorised under this licence outside of the hours

Saturdays – 08.00 – 15.30 hrs.
Sundays and Bank Holidays – No movements.**

Provided that a movement of an authorised vehicle outside of those time shall not be regarded as a breach if (a) it arises from an event not connected with the nature of the work of the operator's business, and (b) relates specifically to an authorised vehicle (such as a breakdown) or its driver, and (c) is not reasonably foreseeable, and (d) details of the vehicle registration mark, driver, times of movements and reasons for them being out-of-hours are recorded by the Operator and kept, together with a photocopy of all, relevant tachograph charts, for not less than six (6) years, with a copy of such record and charts being sent to the Welsh Traffic Area Office in Leeds within 72 hours of each such occurrence.

The Undertaking is varied under the same provisions so as to read:

The Operator will ensure that the wheels of all vehicles authorised under this licence are effectively washed every time before such vehicles leave the site and will use his best endeavours to ensure that all other vehicles have their wheels effectively washed every time before leaving the site.
