Section 1 – Applications Received

Inspection of licence applications can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the traffic area office in Leeds by any person who carries written authorisation to act in that capacity.

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying

criteria has to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1) (a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5) (d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Note: anyone wishing to attend a public inquiry is advised to contact the Office of the Traffic Commissioner on 0121 609 6836, the day before the inquiry, to avoid unnecessary travel should the inquiry be adjourned for any reason.

A transcript of the taped proceedings of public inquiries (either in full or in part) may be ordered from the Office of the Traffic Commissioner. The cost of the transcript varies according to demand and size of content and the office will be able to advise on the scale of charges when an order is placed.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 7th Floor, Victory House, 30-34 Kingsway, London, WC2B 6EX not later than 28 days after the date of the letter conveying the Traffic Commissioner's (or Deputy Traffic Commissioner's) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: www.administrativeappeals.tribunals.gov.uk

- that the licence is curtailed to 3 vehicles with immediate effect;

- that your previous Transport Manager, Phillip Newell's good reputation is tarnished but not lost;

- that the following undertakings given by the operator are to be recorded onto the licence:-

- Safety Inspections will be pre-planned and never more than 6 weeks apart. The PMI reports will be fully and properly completed, show rectification and be retained for at least 2 years.
- There will be a nil defect daily driver reporting system. Defect reports will show rectifications and all reports will be retained for at least 2 years.
- The Operator will undertake a random audit of at least 2 drivers per week to ensure the drivers are undertaking his/their walk round checks correctly. The findings will be recorded and made available to staff from VOSA or the Office of the Traffic Commissioner on request.
- All authorised vehicles (and trailers) will have a rolling road brake test every 3 months not including the MOT. The results will be recorded and records kept for at least 2 years.
- All authorised vehicles will have a thorough and effective pre-MOT inspection. Records of such inspections are to be kept for at least 2 years.
- All tachographs will be independently analysed and monthly reports will be prepared, acted upon and retained for at least 2 years.
- A training program provided by a suitably qualified third party and relating to tachographs, drivers hours and drivers daily defect reporting will be implemented and fully completed by 31st July 2010. Written details of sessions and attendees must be submitted to the Traffic Area Office upon request. Thereafter, the Operator will ensure that all existing and new drivers will receive annual training as described above and records of all training sessions and attendees will be kept for at least 2 years.

Section 6 – Operating Centre Reviews (Without Public Inquiries)

This section lists the results of reviews of operating centres made without the need for a public inquiry (with the Traffic Commissioner's decision based on documentary evidence submitted).
