

Dear *****

I refer to your earlier emails on the subject above. Please accept my apologies for the tardy response to your supplementary request.

Due to restrictions on the reuse of the information contained in the database held by VOSA in regard to operator licence holders I have been advised that this information is not accessible in the format that you require, however I can advise you it is possible to tailor the search criteria on the website on-line service information which would enable you to view the information that you may be seeking.

It is possible to use the on-line search facility by inputting names on the search facility with the % at either end of the one word entry.

For example the word ***** in the format %*****%,

You could also try the words: *****

I think this will assist in your enquiries.

Regards
