

E 16 BRAKES – Vehicles not suitable to test on a Roller Brake Tester. Issued 16/03/04.

Procedure and Standards item 2.

Procedure and Standards item 2 states that “certain vehicles should not be tested on a roller brake tester, e.g. vehicles

- of the 4x4 SWB off road type
- with more than one driving axle permanently engaged
- etc”.

Please delete the first bullet “of the 4x4 SWB off road type”.

Vehicles of this type should continue to be tested on the roller brake tester and subject to the procedure referred to in Information reference 16.5 / 3.

Application item “d.”

The exemption in Application item “d.” should be amended to read –

- d. Disabled Person’s vehicles, in respect of an adaptation to the braking system that
- enables a disabled person to drive the vehicle, or
 - is part of an adaptation to provide a disabled persons seating position.

(Evidence of compliance in the areas not subject to or affected by the adaptation is required).
