

Local authority emissions

Who should attend

This course is provided for local authority personnel who will be involved in vehicle emission spot checking and wish to enhance their knowledge of the emission testing procedures.

Benefits

- A clearer understanding of emission control systems for spark ignition (catalysts and oxygen sensors) and compression Ignition engines (constant regeneration traps).
- An understanding of the difference between annual test standards and prosecution standards.
- Identification of the type of test applied, according to vehicle age.
- Improved understanding of analysis of results, assisting with fault diagnosis.

2 Day course content

- History
- Combustion pollutants
- After treatment and interpretation of results
- Diesel exhaust emissions
- Health and safety
- Test procedures
- Exhaust emission levels

Training at your premises

Facilities required

Classroom:

- LCD projector & screen
- TV & DVD player
- Flipchart or white board

Workshop:

- Gas analyser
- Ramp / lift (If available)
- Smoke meter
- 4 vehicles to work on: old petrol, modern petrol, catalyst petrol, diesel

Maximum Students 12

Course Fee:

2 Day £1650 + VAT

Includes:

- Handouts
- Tuition
- Trainer accommodation & travel expenses within UK mainland

Course dates:
