

Your MOT Certificate is changing

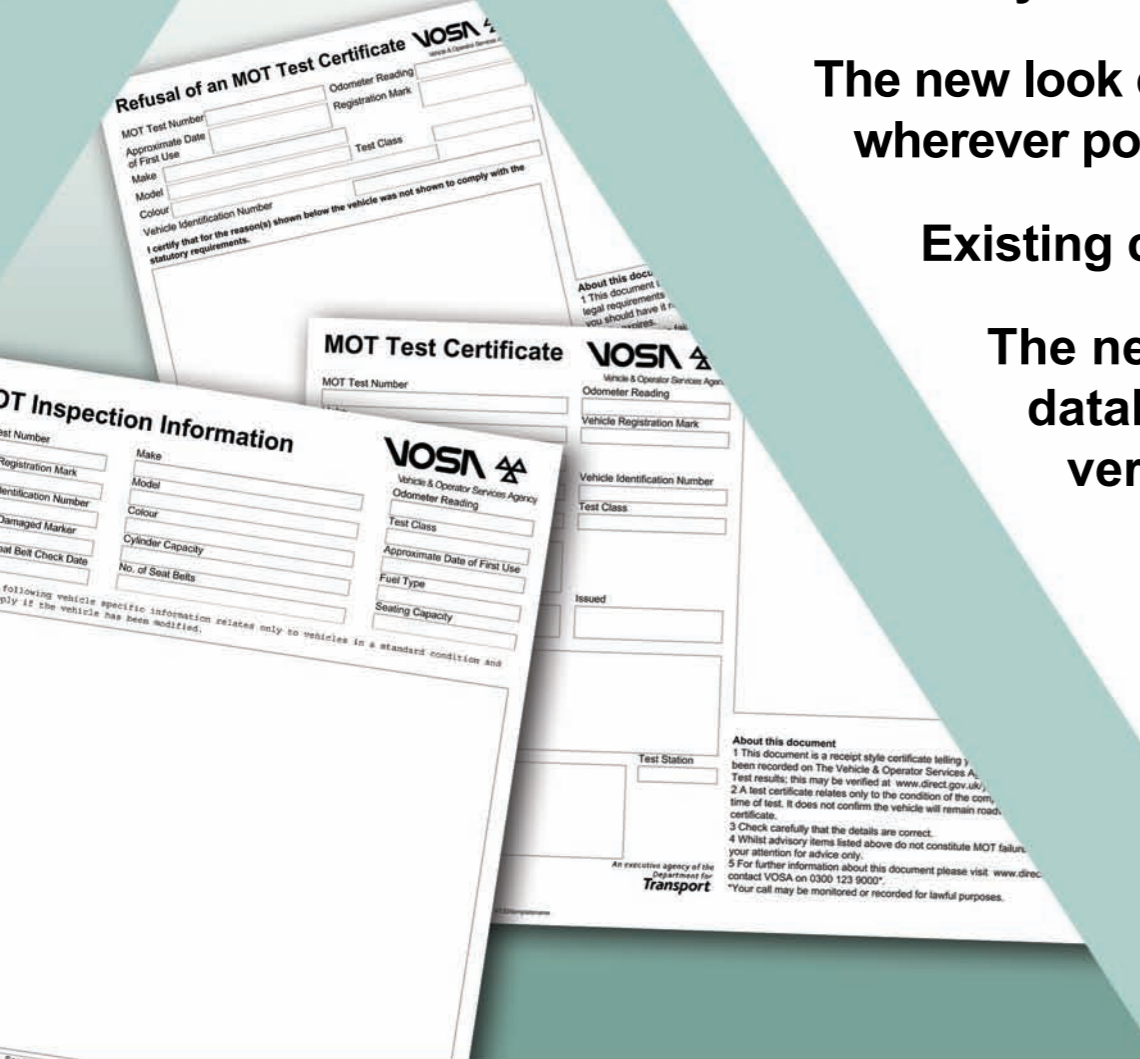

From October 2011 a new style of MOT Certificate will be introduced;

MOT Certificates and Failure notices will no longer be produced on pre-printed coloured forms. Instead they will be printed directly on plain paper in black ink.

The new look certificates will also combine the test result and advisory information onto one page wherever possible.

Existing certificates will continue to remain acceptable and legal during their validity period.

The new style certificate tells you that an MOT pass result has been recorded on the database of MOT test results. Should you lose your certificate you can check and verify your MOT history anytime at: www.direct.gov.uk/yourmotcheck.

More information on changes can be found at www.direct.gov/mot or by calling the VOSA Contact Centre **0300 123 9000***

*Calls provided by BT are charged at a low rate. Charges from other providers may vary.
