

# 9.6 Body and Structure

---

## Information

**This section must be read in conjunction with section 6 of this manual**

### **This inspection only applies to**

Vehicles designed or modified to have footrests for the driver and/or passengers. These must only be inspected where it is clear that they are required for the safe operation of the vehicle.

## Method of Inspection

1. Check driver and passenger footrests for presence and security

## Reason for Rejection

1. A missing or insecure footrest.
